Please read this document before installing the fonts in BuenosAires_AlternativGlyphs_V2.zip

Step 1. Remove the current version of BuenosAires_Alternative on your computer.

NB!

If you haven't previously installed this font family (the Easee font), please go directly to **Step 2**.

Go to Font Book. Select the font family named BuenosAires_Alternativ in you Font Book, then right click and choose *File > Remove*. Font Book moves the font to the Trash. Now restart your Mac.

Step 2: To install the font, unzip the folder and mark all font files found in *"BuenosAires_AlternativGlyphs_V2 > Desktop".*
